RG240 BOOKING CHECKLIST

Pre-test vehicle and document readiness

Job Number (HPF to fill out): ☐☐☐☐☐ **Booking Date:** ☐☐ / ☐☐ / ☐☐☐☐

Complete this checklist before presenting the vehicle for its RG240 emissions test. Tick each item only after confirming it has been completed. If an item cannot be confirmed, contact HPF Auto Service Centre before the booking.

VEHICLE CONDITION

- ☐ The vehicle is safe to operate and suitable for chassis-dynamometer testing.
- ☐ There are no known fuel, engine oil, transmission fluid or coolant leaks.
- ☐ The exhaust system is secure and has no known leaks.
- ☐ The tyres are serviceable, correctly inflated and free from visible damage.
- ☐ The wheels are secure, and the correct wheel nuts or locknut key are available.
- ☐ The vehicle has adequate ground clearance to enter the workshop and be positioned on the dynamometer.
- ☐ Loose items have been removed from the cabin, boot and load area.
- ☐ Body panels, undertrays, spoilers and other fittings are secure.
- ☐ The battery is in serviceable condition.
- ☐ The cooling system is working correctly, and the vehicle does not overheat.

ENGINE AND EMISSIONS SYSTEMS

- ☐ The engine starts, idles and operates correctly.
- ☐ The transmission and driveline operate correctly.
- ☐ There are no unresolved engine, emissions, transmission or other relevant warning lights displayed.
- ☐ The catalytic converters, oxygen sensors and other required emissions-control equipment are fitted and operating.
- ☐ The vehicle has no known diagnostic trouble codes or faults that may affect emissions testing.
- ☐ The engine, fuel system, induction system, exhaust system, ECU calibration and emissions equipment are in the final configuration intended for approval.
- ☐ Any hardware, calibration, fuel or emissions-related changes made since the booking were reported to HPF before the test.

FUEL AND TEST PREPARATION

- ☐ The vehicle contains enough of the specified fuel to complete inspection, setup and testing.
- ☐ The fuel type and octane rating match the configuration declared for the test.
- ☐ The vehicle has not been fuelled with a different fuel or additive unless this was disclosed and approved before testing.
- ☐ The vehicle can be driven through the required test cycle without mechanical or drivability concerns.
- ☐ The vehicle will be delivered at the agreed time and may remain with HPF for the full day.

INFORMATION AND DOCUMENTS

- ☐ The RG240 Customer Details form has been completed and returned.
- ☐ The VASS signatory or engineer has confirmed that RG240 testing is required.
- ☐ The applicable ADR standard or emissions limits have been supplied or confirmed.
- ☐ The VASS signatory's contact details and the eVASS or job reference have been provided where applicable.
- ☐ Details of the engine, ECU, fuel system, induction system, exhaust system and emissions-related modifications have been supplied.
- ☐ Any relevant supporting documents or special test instructions have been provided.

CUSTOMER CONFIRMATION

I confirm that I have checked the items above and, to the best of my knowledge, the vehicle is safe and ready for RG240 emissions testing. I understand that HPF may postpone or decline testing if the vehicle is unsafe, unsuitable for the dynamometer or presented in a condition that may prevent a valid test. I also understand that inspection, diagnosis, repairs, tuning and retesting are separate from the RG240 test unless specifically included in the booking.
